REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to disclose and/or teach a method for packaging flat object that comprises in combination the steps of forming a string of bags from a web of packaging material having a first and a second surface by gripping the first surface at spaced apart gripping points by a distance, reducing the distance between the gripping points and making the packaging material buckle in the same direction so that the flat object can be deposited between the gripping points.

The prior art also fails to disclose a device for packaging flat object that comprises in combination a conveyor system for forming a string of bags from a web of packaging material having a first and a second surface and for conveying the string of bags, wherein the conveyor system comprises gripping elements for gripping the packaging material from its first surface and conveyed at variable distances from each other, a first control means for activating the gripping elements a second control means downstream of the first control means for reducing the space between the gripping elements such that the packaging material would buckle in same direction in order to facilitate the forming of the string of bags.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
